Assurance of Your Safety & Security

About ZM International

Since 2010 we are in pursuit for bringing in the latest technology and providing technological solution to the people of our country. ZM International strives to provide new innovative technology to its valued clients. Our business policy ensures customers satisfaction with cost efficient, high quality products, along with the recrument of a professional, training underwent employees.

Being one of the premier professional providers of a comprehensive range of superior security and risk mitigation services, we strive to provide our services even to the most remote areas of Bangladesh. ZM International's catch line of ASSURANCE OF YOUR SAFETY & SECURITY symbolizes the fact that we adhere to the need of dynamic and innovative security solutions.

In ZM International, we strictly believe in business ethics as we go by the famous saying of Herman Melville "It is better to fail in originality than to succeed in imitation". We believe ethical value is an in built quality in all of ZM's employees and action as we want to have an honest and valued relationships with both our customers and business partners

Born with the vision to provide our clients with superior service that is in line with their ever changing security and protection needs by acquiring customer's satisfaction through excellent service delivery and effective use of security solution and expertise.

CEO Message

Being one of the leading provider of all kinds of security and safety equipments, our mission is to provide a full range of security services across all market segment. We have extensive experience working with international resources and we are eager to try new things and to repeat well-proven success. Being in this field for more than Twelve years, I have always believed in the famous saying of EsteeLaunder, "I have never dreamed about success I worked for it". I have been consistently relied upon by my customers to practice high ethical and professional standards in our service delivery. We even challenge ourselves to improve performance on a day to day basis to create long-term sustainability. I also believe that in order to earn a well reputated position in the market, our firm's reputation must remain untarnished. For which we integrate honesty, integrity and business ethics into all aspects of our business functioning. We have also joined forces with experienced business partners to establish and provide a comprehensive "Next Generation" security system If you have any query regarding our products or services, please don't hesitate to contact us.
